Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Cope et al. (5,064,428). Cope discloses as shown in figures 1 and 2 a medical retrieval instrument comprising a sheath 114, at least one filament provided in a distal end portion of the sheath 114 for holding an object, a fixing member (115-120) provided in the distal end portion of the sheath 114 for fixing one end of the at least one filament to the instrument, and at least one of the sheath and the fixing member has a groove or hole.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 37 and 39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cope et al. (5,064,428) in view of Avellanet (6,264,664). Cope discloses the invention as claimed except for the adhesive. However, Avellanet discloses a surgical basket device comprising the filaments 28 adhering with adhesive to the attachment portion 56.

Art Unit: 3731

It would have been obvious to one having an ordinary skill in the art at the time the invention was made to modify Cope by using adhesive to attach the end of the filament to the distal end of the sheath in view of Avellanet to provide ease in connecting the filament to and disconnecting the filament from the distal sheath.

Allowable Subject Matter

3. Claims 22 and 31 are allowed.

Response to the Applicant's Remarks

The applicant arguments filed on 2/18/05 have been fully considered but they are not persuasive. The arguments regarding to the Kenichiro reference are no longer valid since the added new claims 36-39 required new ground(s) of rejection and Cope et al. reference discloses every structural limitation recited in claims 36 and 38 as shown in figures 1 and 2.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3731

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
